

THIRD INTERNATIONAL SYMPOSIUM “PATRIA”

The third International Symposium “Patria” will be held from March 18 to 20, 2024, at PABEXPO fairs and exhibitions pavilion, in Havana, Cuba, in the context of Cuba’s Media Day celebrations.

This event, sponsored by the Union of Journalists of Cuba, will invite communicators, journalists, digital creators, designers and artists to gather in Havana for a three-day discussion on Artificial Intelligence and the legal, economic, narrative and activism challenges in the networks of the Global South.

The event will promote a discussion about the current status and future possibilities of a New World Information and Communication Order promoted by UNESCO’s McBride Report in 1980.

It will discuss the latest innovations in the digital world and promote the coordinations and co-productions that would involve communicators and experts from the different disciplines that are currently having an impact on social communication.

There will also be presentations, book sales, live broadcasts, mini-concerts and exhibitions with the use of new technologies.
